👤 PROFILE

Greetings

I'm Harut, a developer with expertise in programming, especially in languages C/C++ JavaScript(Node.js,React,Vue.js)

I also work as a learning coach at TUMO, where I help students learn programming, teaching them essential concepts and encouraging their problem-solving skills.

What makes me unique is my commitment to keeping up with the latest developments in the industry. I enjoy exploring new trends and technologies to ensure my skills stay relevant.

🎓 EDUCATION

2022 – present
Yerevan, Armenia

National Polytechnic University of Armenia

2015 – 2020
Gyumri, Armenia

Tumo

Tumo

Learning Coach

- As a Learning Coach, I mentored and guided students in creative and technological subjects.
- I conducted workshops in coding, game development, animation, and design.
- I helped create a positive learning environment and collaborated with other coaches to improve the curriculum.
- I tracked students' progress and emphasized creativity and critical thinking.
- I stayed updated through professional development activities.

PROJECTS

Easy Learn

This project is an educational web platform designed for learning HTML/CSS, SQL, MongoDB, and JavaScript basics, requiring users to log in or register to access courses. It combines Vue.js for the frontend and Node.js with Express and MongoDB Atlas on the backend, providing a secure and dynamic learning environment.

[View Project](#)

Ninja Game

Immerse yourself as a ninja in a thrilling game where you battle knights. Throw stars, leap using elixirs, and avoid knights who try to take them. Accumulate points to emerge victorious!

[View Project](#)

Skyway Survivor

Dive into the world of Skyway Survivor, an engaging and entertaining platformer game designed for endless fun. Experience the thrill of space survival and navigate your way to triumph!

[View Project](#)

Doodle Jump

Doodle Jump offers an addictive, fun-filled platform adventure. Guide a quirky doodler through challenging platforms to soar to new heights. Dodge obstacles, grab power-ups, and enjoy interactive sounds in this game suited for all!

[View Project](#)

GetMovie

GetMovie, your go-to online hub, offers a vast array of movies to suit every preference. Easily find new favorites or classic treasures, all accessible with just a few clicks. Ideal for cinema enthusiasts eager to explore.

[View Project](#)

Durak Game

Dive into our new digital card game, blending strategy, skill, and luck for a captivating experience. Suitable for players at any level, it promises an engaging journey through the world of card gaming.

[View Project](#)

Game Of Life

Discover the Game of Life, an automated universe where entities like grass, GrassEaters, Predators, and Bombs evolve independently. Watch life's cycles play out in this self-unfolding game.

[View Project](#)

Chess Game

Step into the world of online Chess and test your strategic prowess. Engage in this intellectually stimulating game, brought to life on a virtual board that honors its rich tradition.

[View Project](#) 

Mermaid Game

Try my new game, reminiscent of Candy Crush. Move objects to align three or more in a row, clearing them from the board. Race against time to hit the target score or face defeat!

[View Project](#) 

Full-Stack Portfolio

I've developed a website featuring both front-end and back-end elements, crafted using Node.js and React. This project showcases a seamless blend of these powerful technologies.
